

## ***Onion loader***

*Versatile with perfect results*

# VSS AMAC Onion loader

The VSS AMAC Onion loader (OL) has been specifically designed and built to load onions. The VSS AMAC OL is distinguished by its simplicity and large capacity. Service and maintenance can be restricted to a minimum and can be easily carried out. The VSS AMAC OL has an onion collection unit with roll or flap. The long screen conveyor has a small angle of inclination so that the onions do not roll back. The hedgehog web separates the leaves from the onions. The onions are transported into the trailer by a large capacity conveyor.

## OL options

- Controlled tow bar
- Horizontal positioning
- Fabric in the conveyor

## OL characteristics

- Onion collection unit with roll or flap
- Depth controlling wheels
- Small angle of inclination to give large capacity
- 2 powered cutters under the screen
- Cutter intensity is continuously variable
- Hedgehog web (angle of inclination and speed continuously variable)
- Large-capacity long and wide conveyor (speed continuously variable)
- Controlled shaft with automatic centring
- Maintenance-friendly drive (no chains)
- Work lights
- Flashing light

## OL specifications

Length	8 m
Width	2,6 m
Height	3,9 m
Trailer height	4 m
Screen area	7,5 m <sup>2</sup>
Conveyor width	0,9 m

- 1 Powered cutters
- 2 Onion collection unit with roll
- 3 Conveyor
- 4 Collection under an angle possible
